Education

BS Applied IT, *International Business College Mitrovica: IBCM* ⧉   2020 – present
Mitrovica, Kosovo

High School, *Dr.Xheladin Deda*   2017 – 2020
Mitrovica, Kosovo

Professional Experience

Data Analyst, BDO Kosova   12/2022 – Present

Proficiency with handling data conveyed via CSV, Excel and JSON raw file formats, Understanding of common visualization best-practices. As a data analyst I used to work with Python, Pandas, Power BI, Excel and SQL technologies. I used to interpret data and communicate key findings to different banks.

Projects

Web Scraping with Python, *The data on the website were unstructured, so using Python helps me to collect these unstructured data and store them in to a structured form. For this project I used different libraries like requests, BeautifulSoup and Pandas* ⧉

Data Survey with Power BI, *I took a CSV data from Kaggle, and implemented them into Power BI. I cleaned and transformed the data and made a dashboard with the result.* ⧉

Skills

Python	Power BI
Django	SQL
HTML	CSS
Javascript	Excel

Courses

Python & Soft Skills, *BIT Academy*   03/2022 – 09/2022

Python & Django, *ICT & Digital Skills Training on Python*   03/2022 – 07/2022
